Zup! Zero 2

...

like zup! zero....but the same.... Game is really cool in theory and is actually really fun at first. Unfortunately a few levels in the monster balance really begins to fall apart and the game ends up requiring a lot of luck to get through. Would recommend if the game were quicker and easier to restart, however later fights can be quite slow and dull.. After what felt like forever I get to relive the magic that is the Ace Combat franchise. Was it worth it? YES!!! This game finally captured that magic when I first played AC4 on my PS2 years ago. I really recommend this game to anyone who is a long time fan of the franchise and anyone who wants to feel like a badass in the skies.. Up, down, left, right controls take some getting used to but once that is out of the way it's pretty fun to play.. I bought and played this when it first was released on steam (dev was on oculus thread giving away keys for testing and i didnt get one lol) then waited for some time for updates but yeah , looks like it has been abandoned. it was like 1.99usd from memory at the time.

This is what resident evil would have been like in vr... sort of.

The game plays very much in the way of the original RE (that a good thing if you like the mechanics) and being able to peep behind you (in vr) is great .

The zombies are a bit bland and their movement could use a bit of work.

The game looks promising and im keen to play more.. Uhm, sorry no but it just feels... contrived. Being edgy for edginess sake is just not enough. Unless that's your thing. I won't make a refund, since it's so cheap, but I wouldn't mind having spent time on something else.. A beautiful game. A short but meditative experience. The music and visuals are calming and grounding. Would definitely recommend for a relaxing late night or a rainy afternoon.. Good

+Cheap Price

+Good And Long Story

+A way to learn and polish my chinese

+English Sub

Bad

-Unity Engine Game

-Final Fantasy 13 gameplay

-No way to switch language to chinese

-Not As Good As Previous work (Chinese Paladin 5 & 5 prequel)

-bad joke, the game have an invisible wall when you nearly clearing the game.(bug)

Neutral

=30 Fps (i expect nothing less from Unity engine)

=No Controller Support (every chinese paladin game are built for pc player)

=Cutscene and sub are too fast to follow (if you are not native chinese then you will struggle a lot)

=Game is built for chinese audience in mind (if you are not into chinese fantasy you will hate it)

=there is a dual version in mianland china but we get the first version only.

Overall

do not buy this, the game prevent you from completing the game since there is an invincible wall. EXAMPLE BELOW.Be caution when buying this. i have almost complete the game but instead stuck here.(edited 20-11-17)

Fun little wave shooter with a very interesting idea. There is no room scale, it's a standing experience. Game is very fast. You need to turn around a lot.

In the right hand you have your weapon and in the left hand you have an orb ball. The gameplay works that you throw the orb ball on enemies, then you slow down the time and shoot the orb ball which explodes and kills the enemies around you.

This goes surprisingly fast and makes fun so far. Further, you can pick up different orbs like explosion.

At the moment there are only two levels. Not a lot, but it seems the developers working on more.

It is a good game to show off your Vive. It has nice effects, a lot of particles, great colour scheme and an easy game mechanic.

Don't expect a Raw Data or a fully fledged game.

But even if you are sceptical to buy a nother wave shooter, I recommend to take a look on this for the sale price of 5 EUR.

Enjoyable puzzle game, great to kill some time and it works well on lower end PCs.

Some pretty wacky combinations too.

. THE WORK OF ONE WHO CONSORTS WITH BEASTS. best hunting game on steam. I bought this game when it was for sale, so I spent around five bucks, and at first I hated it. I believed it to be an absolute bore.

However with some time and imagination, I loved it and found myself playing it quite frequently.. we need mutiplayer. I killed Hitler AND the Illuminati for \$0.98 cents!. 10V10

Graphics

This game has stunning graphics and runs at 6,000fps along with 4k resolution.

Story

This game has one of the most tense and nailbiting storys i have ever seen, it has me on the edge of my seat at every turn and with every puzzle completed i was a step closer to one of the best endings a game could possibly have.

Gameplay

This game has one of the best engines i have ever seen, you feel so free and as if you actually are Pepe (the godly) Porcupine.

Music

This game has the best soundtrack the human ear can perceive, the music alone awakened me to the world and opened my eyes so i can fully witness life.

Puzzles

This game has the hardest but the most indulging puzzles i have ever seen, it took me hours planning on how i would beat every level.

Charactes

At the end of the game i felt emotionally actached to the porcupine embodiment of god himself Pepe, the character development is great and you really feel for the characters.

Symbolism

The game symoblises how the jews in Germany inside of the labour camps suffered and thier hardship this game captures that emotion and atmosphere perfectly, it shows how the jews had to do manual labour with little rest and no food and how the jaws of death loomed over the jews and could swallow them up at any turn and how the theme of fear was present in everyday life at the camps. The symbolism used by... THIS GAME IS MADE BY GOD HIMSELF AND IF YOU DO NOT BUY IT THEN

YOU ARE NOT WORTHY TO ENTER HEAVEN. IF THE GAME CRASHES ON YOU WHEN LEAVING A LEVEL IT SHOW THAT YOU ARE A SINNER AND ARNT WORTHY TO PLAY THIS MASTERPEICE OF A GAME. This is a game I actually enjoy still after 100%ing it. Yeah baby. Hail to the Polish baby.
